

North Dickinson County School District  
 COVID-19 Case Reporting  
 2020-2021

Beginning October 12, 2020, the number of probable and official cases, as determined by the Dickinson-Iron District Health Department, will be reported below weekly. We are not permitted to share specific information about a probable or positive case as this is a violation of HIPPA and FERPA privacy laws.

NOTE: A student or staff member in quarantine does not equal a positive case. A person could be in quarantine due to being in close contact with someone that is positive from the school setting or outside of the school district. If a student or staff member has been identified as part of contract tracing, the individual will hear directly from the health department or from a building nurse.

Week ending	Positive Staff or Contractor	Positive Student(s)	Probable Staff or Contractor	Probable Student(s)
10/16/2020	1	0
